BOAT CLUB FISHO NEWS – November 2007

October Inside Fisho

This was probably the best turnout we've had since, well since I've been in the club. Congratulations to everyone who entered especially Rod Ball who took out the event with a 500 gm Bream and a total score of 41 points. Run down went to:

R Thomas 40 Points
Sue Thomas 27 Points
Helen Jasinski 23.5 Points

The kids had a good time too with most or all of them entering one or two fish. There will be a prize for the juniors at the presentation night so keep fishing kids.

November Outside Event 17-18 November

As most of you are aware the next Fisho in November is an outside (or open) competition. This means you are not just restricted to estuary, beach or bank but can go after the big ones out wide.

For the purposes of this club 'Outside' means the Pacific Ocean or the area of Moreton Bay north of the Logan River Mouth. Normally for inside comps you have to fish inside the islands and south of the Logan River mouth.

But we wanna keep this safe! So you have to sign in before you head out, and I request that you also write your mobile number, boat rego and VHF and 27mhz call sign in the Boat Name column of sign in sheet. PLUS I think that you should also log in with the coast guard that will be nearest to you.

I will assess the weather conditions also. If I think that it is unsafe to proceed outside I will make a snap decision and make the event an inside comp. I will not condone an event in unsafe conditions. I guess it's my conscience at stake so it's my rules.

But ever flexible, I will be making the sign in time for the November Fisho from 0800 to 1200 hours on Saturday 17 November. Weigh in will be 1200 hrs on 18 November as per normal. This'll give any of you who intend to fish outside a bit of traveling time. A few of you have expressed an interest in fishing outside but have also said you don't have much experience with ocean or exposed bay conditions. If you want to charter a boat for the day go ahead, but advise me of the details as I'll have to make an allowance for you and sign you in as most charter skippers will want to leave at sparrow fart. Please email me privately if you intend to do this.

If you want to team up with a more experienced boatie, hit **'reply all'** on this email and post an expression of interest to accompany someone with experience or act as their crew. But remember – its up to your own judgment as to whether you have sufficient experience to head outside and its up to you to make sure you have prepared properly and have all the right safety gear.
