

Building & Maintenance Reports

From the B & M,

Well this is my last report as b & m and once again the members have been busy at boat haven. Many thanks to the huge team that showed up to clean the locker rooms, day sheds, gas and crab pot sheds as well as around the area. Also many thanks to the Gold Coast Council for their trailer. We had to attend to another blocked toilet and I have to remind people that our system is a low pressure system and will not take having a heap of paper stuffed down it so remind each other and the kids as these toots have to do us for a while yet so we have to look after them. As for boat haven itself it is looking fantastic with the new turf going down and the junk being removed and the wall looking great. Well done to all b & m

Best Regards

Michael Fahey (Former B&M)

B&M Annual Report

Well what a year it has been. Just seconds after joining the club I found myself on the committee as B & M. It started badly as my back decided I was getting old all of a sudden but that's when I discovered how great a club this is Help came from everywhere and best wishes as well and I gratefully thank all ... I also found out how passionate the members are about the club Large groups helping each other and the committee debating (sometimes heatedly) on what's good for the club and how to help it go forward and be better for the members ... I have to say it was great to see the inner workings of the club and suggest to all at one stage apply for a position on the committee to see how and what goes into running the club and its events etc. As for my duty as b & m I hope I didn't do too bad a job ... I must say the support I received was fantastic and once again thank you all involved with the working bees, committee days and general gatherings ... as Gary Reid said at the dinner ... "you do what you can at the club to make it better for your family and friends as well as others to enjoy" ... and I think with the wall and Gary's ramp and the toilets and the grass areas and the lighting and the ongoing upkeep of the club area that is what has happened and hopefully will be happening in the future I would like to thank the out going committee as well as it has been fun working with them ... thank you and see you at boat haven m

Best Regards

Michael Fahey (Former B&M)
